**FOR ALL TYPE**  
**RESTAURANTS**

# Why Choose Us

- ▶ **Complete Restaurant Management**  
From orders to payroll, manage everything in one place with our all-in-one POS ecosystem.
- ▶ **Free Custom Online Ordering Website**  
Launch your branded website with integrated online ordering and delivery options—no third-party fees.
- ▶ **Free Mobile Applications for Everyone**  
Seamless app access for **Waiters, Kitchen Staff, and Customers**, each designed for their specific roles to improve efficiency and satisfaction.
- ▶ **Flexible Subscription Plans**  
Choose from tailored plans for small, medium, or large-scale restaurants, with affordable monthly pricing.
- ▶ **Cloud-Based Access**  
Manage your restaurant from anywhere, at any time—with real-time sync across devices.
- ▶ **Powerful Reporting & Analytics**  
Get insights on sales, staff performance, customer trends, and inventory to make data-driven decisions.
- ▶ **Easy-to-Use Interface**  
Clean, intuitive design that requires minimal training—get your staff up and running fast.
- ▶ **Dedicated Support**  
Reliable, friendly support team always ready to assist, ensuring your operations run smoothly.
- ▶ **Scalable as You Grow**  
Easily upgrade your plan or add features as your business expands—no need to switch systems.

# OUR HAPPY CLIENT'S

# TECHNOLOGY USED

# Key Features of RMS

**POS / Billing  
System**

**Account  
Management**

**Inventory & Stock  
Management**

**Human Resource  
management**

# INVENTORY MANAGEMENT

**Food  
Management**

**Production  
Management**

**Purchase  
Management**

**Stock  
Management**

# PURCHASE

## Supplier

Supplier detail for future repetitive task . Easy Work order & Purchase order management process. History & Report.

## Purchase

Purchase of raw ingredients and ready product items.

## Report

Purchase and return history automatically sync in POS system hence to create Production Report, Ingredient Report, Ready/Finished Product report (Ex: Sugar, Tomato etc.)

## Wastage

Waste Tracking & Management through the system.

## Stock

Opening & closing Stock Quantity

# MAKE YOUR OWN **RECIPE..**

## **PRODUCTION**

Both Manual and Auto Production System available. Auto production works based on pre set menus which Owner can modify at any time. Production Recipe Costing & Calculation according to Quantity. Add Item information & create list of set menus.

## **INGREDIENTS**

Add all your ingredients item detail including Per Unit Cost

## **MENU / ITEM**

You can make your set menu by including required ingredients and items

## **COSTING**

POS system will automatically calculate Total Cost of your Ingredients and Set Menus against your expenses so you will have your Profit & Loss report instantly

## **STOCK OVERVIEW**

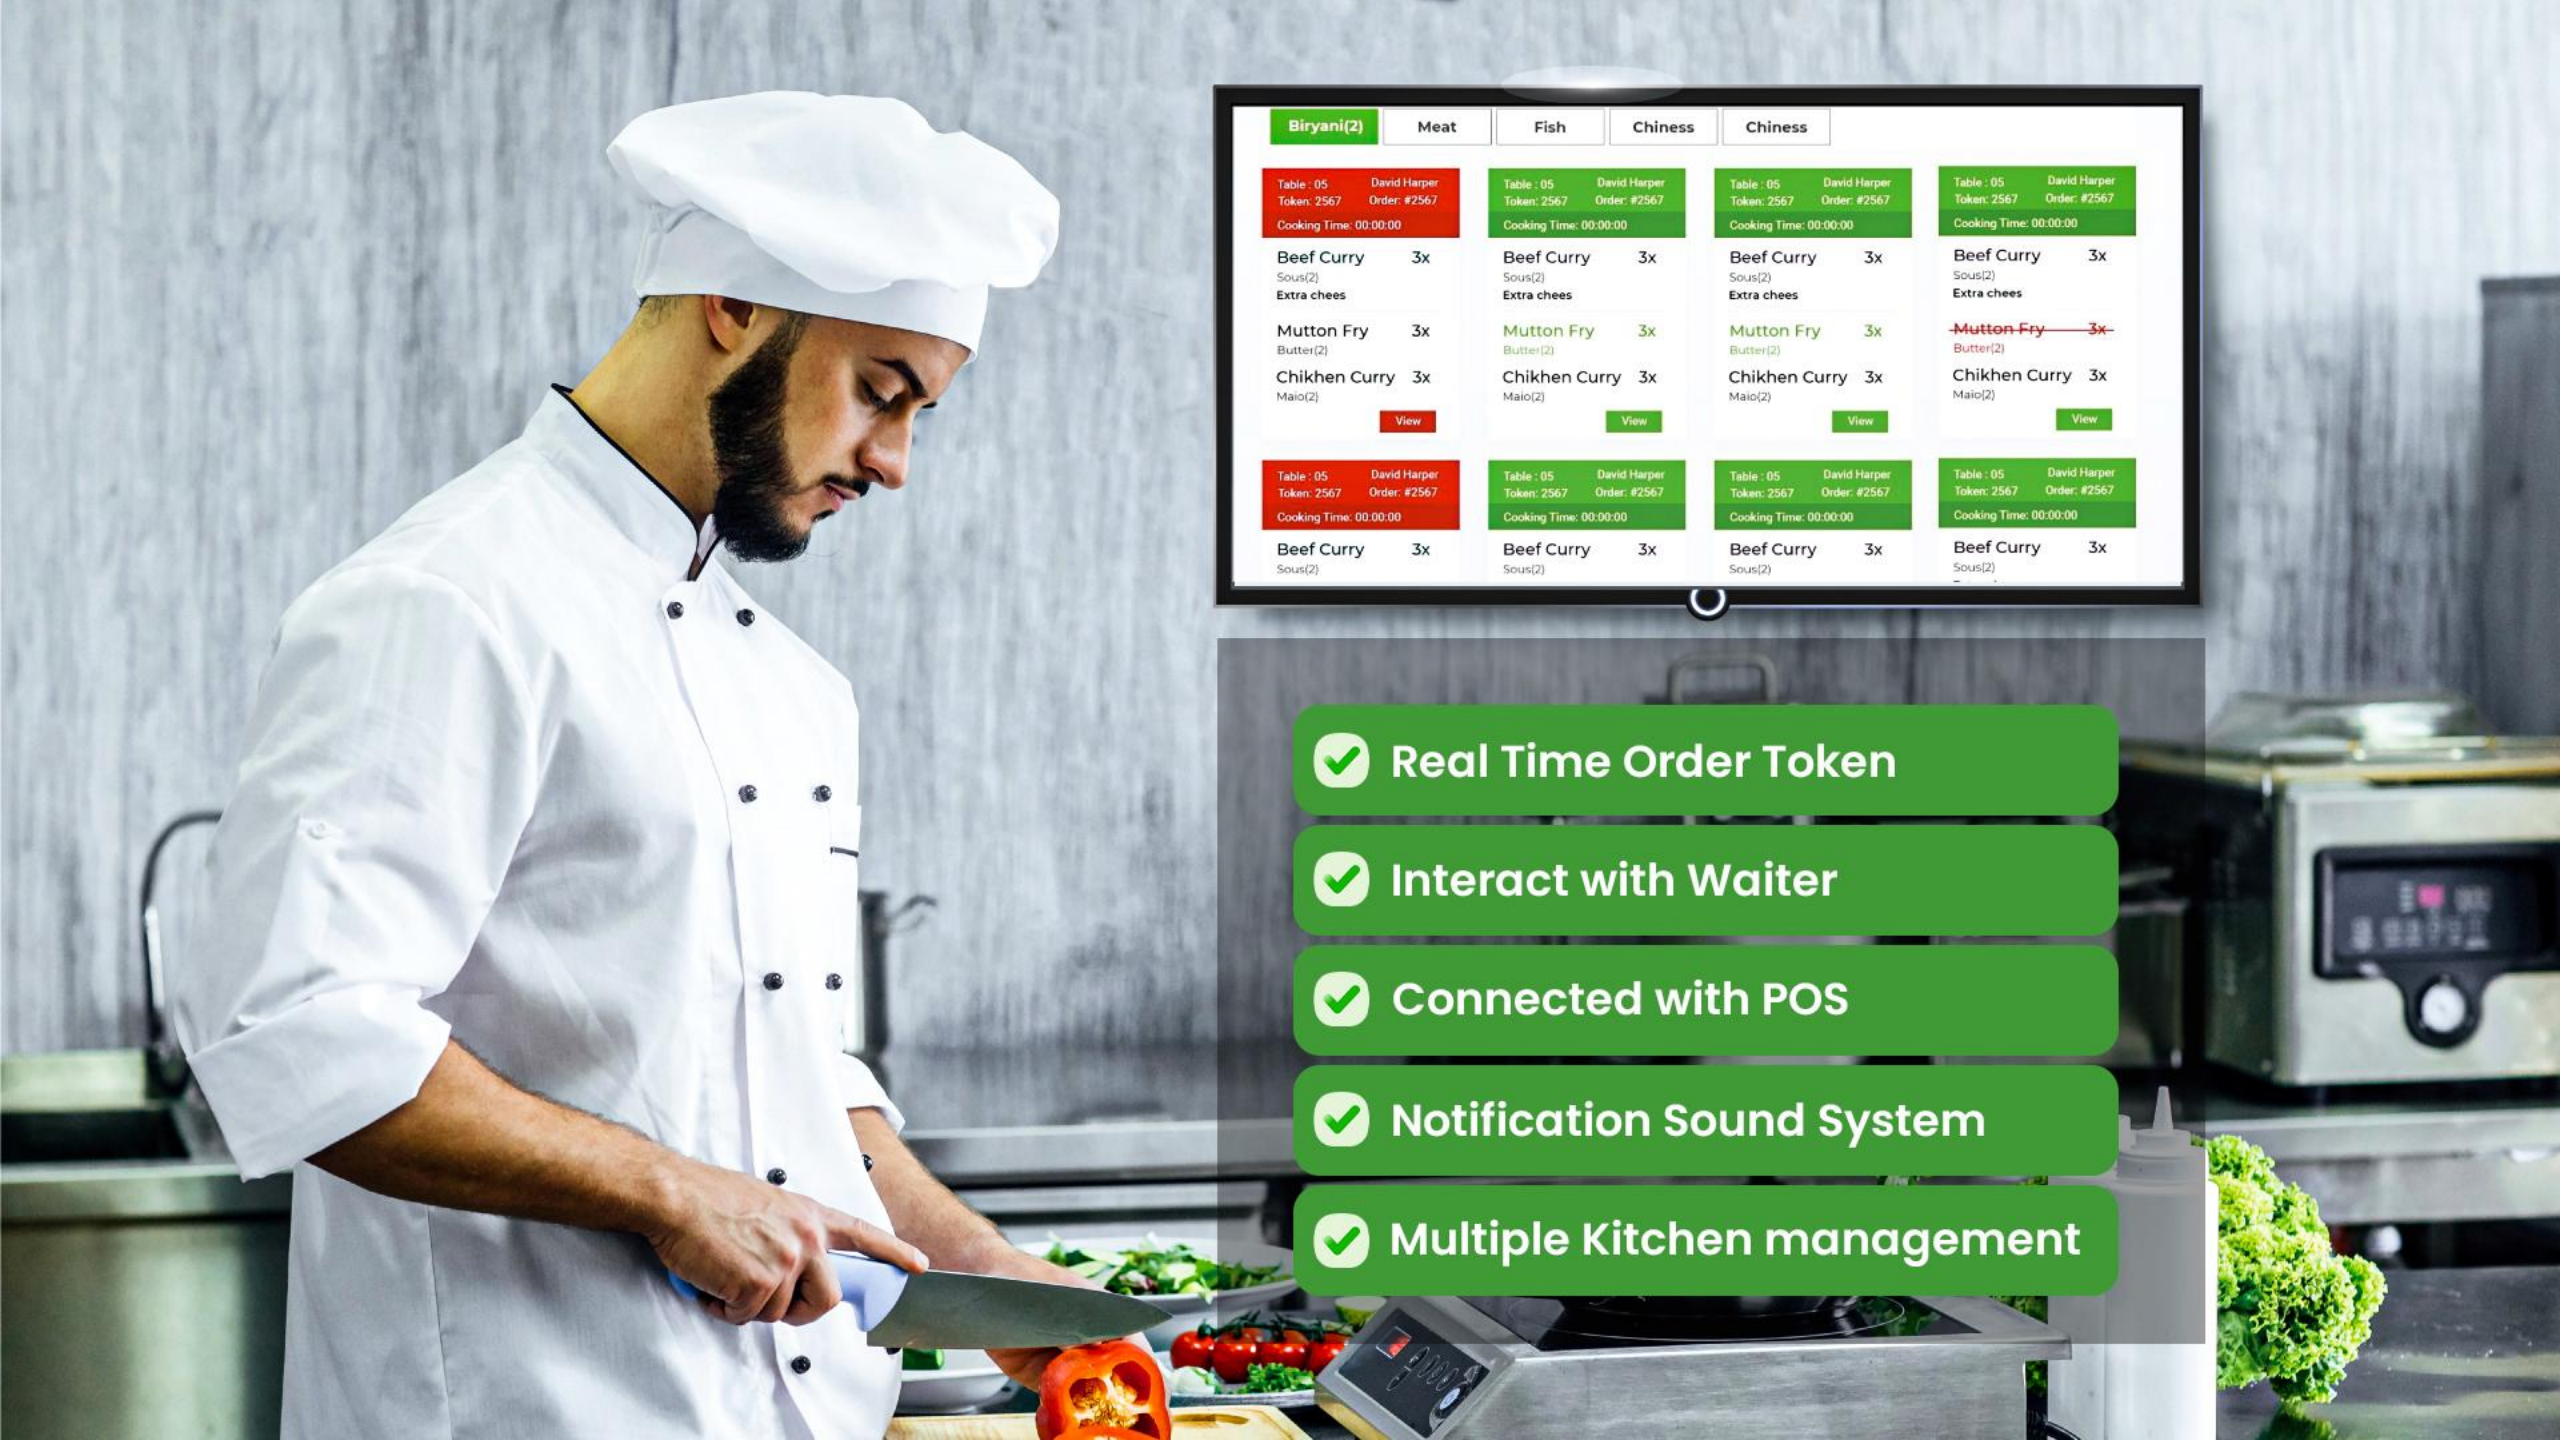

You can check if any raw ingredients stock is low and take action ahead. The system will also automatically close specific menu based on shortage.
